

NAFISEH SAMI

Final-year MD | Digital Health, Precision Medicine & Clinical AI

Tehran, Iran • nafisehsami@gmail.com • +98 912 307 0535

[linkedin.com/in/nafiseh-sami-9807991b3](https://www.linkedin.com/in/nafiseh-sami-9807991b3) • [Google Scholar](https://scholar.google.com/citations?user=...) • [ORCID: 0000-0001-8453-1949](https://orcid.org/0000-0001-8453-1949)

AREAS OF INTEREST

Digital Health

Precision Medicine

Diabetes & Metabolic Health

Data-Driven Chronic Disease
Management

Research Methodology & Evidence
Synthesis

DIGITAL HEALTH & TECHNICAL

Python (**basic**)

Clinical NLP / LLM / RAG workflows /
Git / GitHub (**developing**)

RESEARCH & CLINICAL

Scientific writing

Systematic & narrative review
methodology

Literature synthesis

Research mentorship

Clinical research collaboration

Team coordination

COURSES & TRAINING

Health MBA Program

Proposal Writing

Narrative Review Writing

Systematic Review Writing

Meta-Analysis with Python

Writing Research Papers with ML

Stereotaxic Rat Brain Surgery

SELECTED CONFERENCES

**idARE Symposium, Sanofi — Diabetes
Advancements in Research Event**

**2nd International Congress of AI in
Medical Sciences (AIMS 2025)**

First National Student Cancer Congress
Cognitive Neuroscience Competition —
participant

◆ PROFILE

Final-year MD candidate with an active background in clinical research, scientific writing, and research mentorship (13 publications, H-index 6). Developing a focused interest in digital health and precision medicine, particularly in diabetes and data-driven chronic disease management, alongside early hands-on technical exposure.

◆ EDUCATION

Doctor of Medicine (MD) — Islamic Azad University, Tehran Medical Branch

2019 – Present (Final Year)

MD Thesis (in progress): “Investigating the Relationship Between eHealth Literacy and Type 2 Diabetes Management in Patients Referring to Tehran Naft Central Hospital and Affiliated Healthcare Centers,” 2025–2026.

◆ PUBLICATIONS

13 peer-reviewed publications | H-index: 6

- Antidiabetic Agents and Stroke Risk in Type 2 Diabetes: A Narrative Review of Mechanisms, Evidence, and Clinical Implications — Studies in Multidisciplinary Medical Research [*First Author*]
- The prevalence of educational burnout, depression, anxiety, and stress among medical students of the Islamic Azad University in Tehran, Iran — BMC Medical Education (Q1)
- Dermatological adverse effects of ventriculoperitoneal shunt: A Systematic Review — World Neurosurgery (Q2) [*First Author*]
- Electrical lymph node scanning (ELS) system for real-time intra-operative detection of involved axillary lymph nodes in adjuvant breast cancer patients — Scientific Reports (Q1)
- Flavonoids against depression: a comprehensive review of literature — Frontiers in Pharmacology (Q1)
- Unlocking the Genetic Code: A Systematic Review and Bioinformatic Analysis of the MS4A Gene Cluster's Role in Alzheimer's Disease — Current Genetic Medicine Reports [*Shared First Author*]
- Intraoperative assessment of high-risk thyroid nodules based on electrical impedance measurements: A feasibility study — Diagnostics (Q2)
- Evaluation of curcumin-based ophthalmic nano-emulsion on atropine-induced dry eye in mice — Heliyon (Q2)
- Formulation and evaluation of the effects of ophthalmic nanoemulsion of Nigella sativa seed extract on atropine-induced dry eye in mice — Phytomedicine Plus (Q2)
- COVID-19 delirium versus non-COVID-19 delirium in Iran: a computational approach — Acute and Critical Care (Q2)

LANGUAGES

Persian — Native

English — Fluent

- Natural STAT3 inhibitors for cancer treatment: A narrative review — Recent Patents on Anti-Cancer Drug Discovery (Q3)
- Anti-breast cancer potential of honey: A narrative review — OncoReview
- Different effects of the Toxoplasma on rats: A review — Clinical Medicine and Health Research Journal

◆ PEER REVIEW

- ✓ Invited Peer Reviewer — BMC Medical Education (Q1), 2026
- ✓ Invited Peer Reviewer — BMC Psychiatry (Q1), 2026

◆ MANUSCRIPTS IN PREPARATION

Mentoring junior researchers across several ongoing systematic/scoping review projects, including a diabetes/metabolic-health-related topic (functional connectivity in diabetic retinopathy, GLP1-RA in multiple sclerosis).

◆ RESEARCH EXPERIENCE & LEADERSHIP

Member, Research & Technology Department — Medical Student Research Committee, Islamic Azad University Tehran Medical Branch

Ongoing

- Guide inexperienced junior researchers into early research participation.
- Contribute to developing research-training workshops for medical students.

Research Mentor — Research Institute for Functional Neurosurgery (RIFN), SBMU

Mar 2025 – Present

- Joined as a co-author and transitioned into mentoring junior

Clinical Trial Collaborator — CDP-ELS Breast Cancer Project, Shohadaye-Tajrish Hospital

Oct 2021 – Mar 2022

- Supported execution of a clinical trial evaluating an electrical lymph node scanning (ELS) device for real-time detection of involved axillary lymph nodes in breast cancer patients.

Clinical Trial Collaborator — CDP-ELS Project, Phase II, Motamed Cancer Institute, ACECR

Oct 2024 – Mar 2025

- Continued collaboration on the second phase of the same ELS clinical trial.

Proposal & Manuscript Co-author; Study Execution — Nano-curcumin Ophthalmic Nanoemulsion, Atropine-Induced Dry Eye (Mouse Model)

Mar – Jun 2021

- Co-wrote the research proposal and manuscript; executed both the pilot and the 50-day main study, including lab-animal handling.

◆ DIGITAL HEALTH & TECHNICAL PROJECTS (EARLY-STAGE)

HALAJ — Medical Report Structuring Pipeline

- Originally initiated by a mentor; working to continue and advance the pipeline toward completion.

CareNest

- Early diabetes-focused chronic-disease-management prototype; intended as a primary project going forward.

Mana

- Early experimental retrieval-augmented assistant exploring guideline-grounded information retrieval (ADA/AHA).

OSCE Tutor

- Early experimental prototype for clinical examination (OSCE) practice.

◆ CONFERENCE PRESENTATIONS

- Bridging Prediction and Personalization: Clinical Implications of AI in Diabetes Management — 2nd International Congress of Convergence in Basic and Medical Sciences
- The Efficacy of Tirzepatide in Managing Type 2 Diabetes — 2nd International Congress of Convergence in Basic and Medical Sciences
- Poster Presentation: Main Fetal Surgeries to Treat Neural Tube Defects — International Congress of Biomedicine (ICB), 2020

◆ ADDITIONAL EXPERIENCE

Head, Student Digital Marketing Team & Medical Advisor — Iran MedClub (DaneshAmookhtegan-e-Tehran Co.)

2021 – 2024

- Led the student digital marketing team.
- Served as medical advisor: developed study plans and provided messaging/phone guidance to help medical students prepare for exams.

Editing — Top Schools Assessment Center

2021–Present

Volunteer Teaching, Basic Medical Sciences — Faculty of Engineering, University of Tehran

2022

Volunteer Phlebotomist — Sadr Comprehensive Blood Donation Center

2021–2022
